BLINDS

CLEANS

Specially formulated for Sunscreen Mesh and Clear PVC blinds, powerfully concentrated for a streak-free finish.

RESTORES

Swiftee shines and restores clarity to Clear PVC blinds, thoroughly cleans your Sunscreen Mesh, and leaves your blinds looking like new.

PROTECTS

Swiftee removes and inhibits mould and protects your outdoor blinds from the elements.

QUICK & EASY TO USE

1. Use 2 capfuls or approx. 25ml of Swiftee concentrate for every 1 litre of water. A standard 9-litre bucket (18 capfuls) allows to comfortably wash 3 medium size blinds, front and back.
2. Test on an inconspicuous area of the blind before cleaning.
3. Dip a sponge, squeegee or soft bristle brush / broom into the bucket and wash all areas of the blind. Clear PVC blinds can scratch, please take care.
4. Rinse thoroughly with clean water, and allow the blind to dry before retracting. Blinds can be hand-dried with a soft cloth or squeegee. Additional care must be taken with motorised blinds - electrical components should not be exposed to water.
5. Store in a cool, dry place out of reach of direct sunlight. Do not mix with detergents as deactivation of the disinfectant may occur.
